2027 CHRYSLER PACIFICA

Pacifica Debuts a New Face

PRESS RELEASE

The future face of Chrysler is here. The refreshed 2027 Chrysler Pacifica, the newest version of America's best-selling and most awarded minivan, brings a bold new front design and an illuminated wing badge that serve as the blueprint for the next generation of Chrysler vehicles.

"Chrysler invented the minivan 43 years ago, and with more than 16.6 million sold, including more than 1.15 million Pacifica models, our leadership in this segment remains unmatched," said Matt McAlear, Chrysler brand CEO.

The Pacifica continues to offer its award-winning features, including class-exclusive Stow 'n Go seating in both the second and third rows, the FamCAM interior camera, rear-seat entertainment, the most safety and security features in the segment, best-in-class towing and seven- or eight-passenger seating.

The 2027 Chrysler Pacifica introduces a striking new front design with vertical LED headlamps and an illuminated grille, along with new trims, colors and the Copperline appearance package.

A NEW FACE

Pacifica Select, Limited and Pinnacle trims receive a new front fascia with vertical LED headlamps and an illuminated grille with a unique lighted signature called "piano keys." The centerpiece is a new illuminated version of the Chrysler wing badge. On Limited and Pinnacle trims, the Pacifica "wakes up" with a welcome animation as the center lamp, signature lights and badge light up, followed by the piano keys at each corner.

New projector headlamps improve low-beam performance by 20% and high-beam performance by 25%. A redesigned rear light bar applique and updated wing badge complete the look. Eight wheel designs are available, including new 18- and 20-inch designs, and Olive Green joins the color palette.

NEW LX TRIM

The Pacifica LX, formerly the Voyager, keeps its familiar exterior design while offering a budget-friendly entry point. It comes well equipped with power-sliding doors and heated seats and steering wheel.

UPPER TRIMS

The range-topping Pinnacle debuts an exclusive Blue Agave Nappa leather interior with a new parquet perforation pattern, Sol Stopper copper accent stitching and Tungsten Patina piping. Copper Alloy accents replace traditional chrome on the climate vents and door trim.

Unveiled at the 2026 Los Angeles Auto Show, the new Copperline Appearance Package for Limited and Pinnacle adds copper-tinted 20-inch wheels, copper-colored mirror caps and profile blades, copper-accented front and rear fascias and Copperline badging, along with copper interior accents. A new Ski Grey interior offers a lighter color choice inspired by customer feedback.

FAMILY FEATURES

A new adjustable-height power liftgate, standard on all trims, lets owners set how high the liftgate opens to avoid low garage ceilings, carports and parking decks.

The Safety Sphere Package adds turn-signal-activated Blind-spot View and camera activation tied to the ParkSense system.

A more flexible technology strategy separates the Uconnect Theater Group from the newly named Family Tech Group, so families can choose the features that matter most, whether that is Amazon Fire TV built-in, FamCAM, premium audio, extra power outlets or second- and third-row features.

For more than 20 years, Stow 'n Go seating has let the Pacifica's second- and third-row seats fold into the floor, creating a flat load space in seconds. Pacifica is also the only minivan to offer all-wheel drive with second-row Stow 'n Go, available on Select, Limited and Pinnacle trims.

POWERTRAIN

The award-winning 3.6-liter Pentastar V6 engine and segment-exclusive nine-speed automatic transmission deliver 287 horsepower and 262 lb-ft of torque. The Pacifica can tow up to 3,600 pounds.

PRICING

The 2027 Chrysler Pacifica lineup starts at $41,595 for the LX trim. The Select is priced at $43,645, the Limited at $48,095 and the Pinnacle at $54,910. Prices exclude destination.
